MountainSmith

www.mountainsmith.com

Designed with input from professional photographers, MountainSmith's 2007 camera bag collection is more technical and performance-oriented than that found in most camera departments, and is differentiated by its proven technical outdoor functionality. Each model has been designed for worry-free protection, easy accessibility, and versatile organization.

New this year: two wheel bags, four packs, three shoulder bags, one holster, one fanny pack, and six small cases.

"I travel a lot to remote destinations, oftentimes to war zones, and my gear gets banged around far more than average. I've been using MountainSmith packs for around 15 years, so I was psyched when they introduced a line of packs and bags made
